Register a free business account This compact tabletoptape dispenser features a water reservoir to automatically activate the tape as it dispenses, saving time and increasing efficiency. It is ideal for use with 3M Water Activated Paper Tapes. It has a water reservoir to activate the adhesive as the tape is dispensed — no need for separate wetting to produce a secure bond and seal corrugated cartons. For accurate and consistent tape distribution, the dispenser can be set for preset lengths to save operators the step of cutting the tape. http://www.h-p-n.fr/catalogue_dynamique/combi-neosis-manual.xml

Its also sized for portability — it fits on a table top and is easily carried between locations so operators can keep activated tape strips at their fingertips. To create a strong, lasting seal, the moistened adhesive interacts with porous surfaces to form a powerful, secure bond. This tape bond forms a tamperevident seal that shreds if an attempt is made to pull it off before delivery. Normally constructed from paper, our corrugated sealing tape is easy to apply and handle, making it ideal for hand applications. Boxes are securely sealed yet easy to open without cutting tools. This compact tabletoptape dispenser features a water reservoir to automatically activate the tape as it dispenses, saving time and increasing efficiency. It is ideal for use with 3M Water Activated Paper Tapes. This 3M personal protective equipment Misuse of personal protective equipment may For correct product selection and use, Over the years he's learned what it takes to satisfy a customer. Which, sometimes means going the extra mile literally.

In the early 1990s, on a hot summer day in Columbus, OH, Art, then an employee of a local packaging supply company, received a call from a customer who had run out of packaging peanuts and therefore, were unable to ship any orders. With stock located over 100 miles away, his customer was facing a shut down situation. Art recognized the impact this could have on his customer and went to work exploring any and all options. Stock could be delivered the next day, but that wasn't good enough. Art decided to purchase some product from a local competitor and strapped it onto the top of his car. He recalls driving about 25 mph on back roads to his customer's location. Needless to say his customer was extremely happy and was shipping packages with almost no downtime. Art on right going the extra mile for his customer. Art has instilled these same values in everyone here at PacknTape and our everyday activities.
